

What is „CAPE“?

CAPE is a project co-funded by the EU within „ERASMUS+“ and titled:

„Effectiveness of Common Agricultural Policy Implementation in Slovakia“

What is the aim of the project?

The main aim of the project is to perform the interdisciplinary research in the field of the effectiveness of CAP implementation in Slovakia with the specific objectives to discuss and advise local, regional, national policymakers and decision-makers on different aspects of the CAP implementation, transfer the research results and the expertise to the practice and to disseminate the project outcomes among interested target groups and civil society.

What are the benefits of the project?

- thematically practical manuals related to the CAP published during project lifetime;
- report about the research results published once a year;
- five scientific papers/posters published each year;
- international conference for academics, stakeholders, policymakers and decision-makers organised once per project lifetime;
- participation of researchers in the international conferences improved policy and decision-making processes in the field of agricultural policy at the local, regional, national level;
- increased recognisability and visibility of the association in the international professional environment.
- promotion of excellence of research in the field of the CAP;
- understanding of the CAP as a socio-economic and environmental instrument directed to the sustainable food and agriculture in Slovakia and the EU;
- harmonization of policies and actions related to agricultural management in Slovakia and the EU;
- increasing awareness of diverse target groups of the importance of agriculture and its proper governance in the EU.

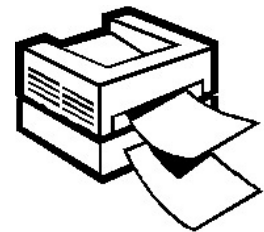

Who can benefit from the project?

- PhD students
- Policy makers
- Decision makers
- farmers

What are the expected outcomes of the project?

➤ Manuals:

- Manual “Common agricultural policy”
- Manual “Land law in Slovakia”
- Manual “Good farming practice”
- Manual “Establishment of the farm”
- Manual “How to write and implement a successful project under the calls of the Common agricultural policy”
- Manual New “technological approaches in the EU”

➤ Scientific articles

What activities will be organized as part of the project?
